

CONTENTS

AUTUMN 2011

News 06

A roundup of the key announcements from across the technology and manufacturing industries, including the release of Dynamics AX 2012, more on Derdack's new enterprise alerting app for Windows Phone 7, why Lockheed Martin Space Systems Company has implemented Dassault Systèmes' PLM solutions, plus an exclusive roundtable with top Microsoft partners on sustainability in process manufacturing

Viewpoints 18

Thought leadership on key issues and top trends from across the industry from Matthes Derdack of Derdack, Allen Carney at Kofax, To-Increase's Gilbert Garcia and Christian Barr at PTC

Cover story

Making waves 24

Marine propulsion engines manufacturer Mercury Marine adopts Teamcenter from Siemens PLM Software to halve the time it takes to make engineering changes

Features

Race to the top 30

In the race to get products to market faster, performing realistic simulation earlier in the design process can have a substantial positive impact on time, profitability and competitiveness. Lindsay James finds out more

Better together 36

The ability for manufacturers to collaborate across organisational boundaries is fast becoming essential. Microsoft's Colin Masson explains how technology can help businesses make the paradigm shift to Operations 2.0

Solution profile

Next-generation ERP: Dynamics AX 2012 44

On the back of the recent launch of Microsoft Dynamics AX 2012, Luke Shave at Microsoft looks at the impact this new solution will have on the chemicals industry

Focus

Discrete-event simulation 48

Rockwell Automation's Carley Jurishica presents some practical advice for organisations considering the use of simulation technology

Computer aided design 50

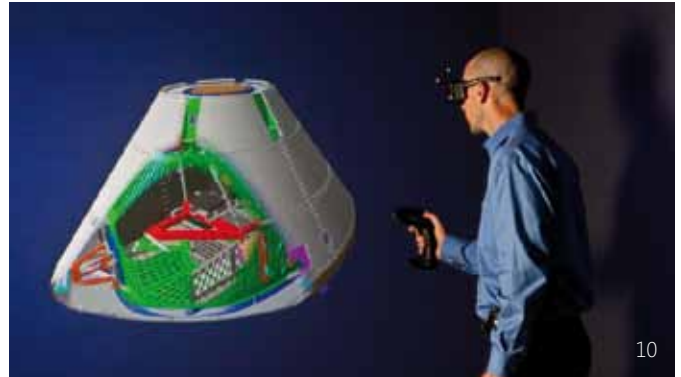

Jan Larsson at Siemens PLM Software explains how manufacturers can help overcome the issues involved with working in a multi-CAD environment

In practice 52

Successful technology implementations at fruit processor Grünewald International and leading helicopter manufacturer Eurocopter

Signing out 56

Rebecca Lambert speaks to Robin Hancock about the latest developments in PLM
